Life can be stressful. Everyone faces demands and adjustments in life, and anyone of us may break down, if the going gets tough enough. Under conditions of overwhelming stress, even a previously stable person may develop temporary psychological problems and lose the capacity to gain pleasure from life.

Today's stress can be tomorrow's vulnerability. Each one is in pursuit of happiness. Though happiness is a state of mind, people continuously run after in material possessions.

Keeping in mind the present scenario, the Department of Psychology is holding a faculty development programme to reduce stress and enhance the happiness

quotient on 28th of February 2015 from 10.00am-12.00 noon.

The Management of the College has taken a serious notice about love shown by some persons towards feeding stray dogs, monkey, cats etc. which is full of risks as many incidents of dog biting the school children are occurring almost every day. Therefore, all the employees are requested to desist from such practices, especially the Gate Keepers/Chowkidars will have to take sound steps to prevent the entrance of dogs from the main gate of the College, otherwise they are liable for strict action for this lapse on their part.
